

Product Overview:

The LA-438 Advanced Neck Loop from Listen Technologies provides a reliable and effective way for listeners with telecoilequipped hearing aids and cochlear implants to utilize your assistive listening system. Each neck loop slips comfortably over the wearer's neck and transmits the audio signal wirelessly to their t-coil device, leaving their hands free for added convenience.

Highlights:

- Industry leading magnetic field strength range
- Safety breakaway connection
- Compatibility switch work with a wide range of devices
- Compatible with any telecoil-equipped hearing aid or cochlear implant
- Works with any of Listen Technologies' receivers for an integrated listening solution
- Lightweight for comfort and convenience

Includes:

One (1) LA-438 Advanced Neck Loop (Adult)
